Senior Angular Developer with 4.5+ years of expertise.

Experience

Innova Solutions, Senior Software Engineer | Noida, India   *Aug 2023 - Present*
- Proficiently managed Angular 14 projects, demonstrating expertise in the latest framework version, and adeptly leveraging its advanced features to enhance application development.
- Spearheaded the end-to-end deployment process for Angular applications, showcasing a deep understanding of deployment best practices, version control, and continuous integration to ensure seamless and reliable releases.

Capgemini, Professional 1 | Noida, India   *Feb 2022 - Aug 2023*
- Maintained applications using AWS, HTML5, JavaScript, and Angular 10, ensuring responsiveness and user-friendliness. Collaborated cross-functionally to implement innovative features.
- Proficient in testing tools like Jasmine, Selenium, Jest, Protractor, and web inspectors (Chrome/Safari/IE). Automated API and UI tests, conducted code reviews, and provided valuable feedback to team members.

NEC Corporation India, Member Technical Staff | Noida, India   *Oct 2019 - Feb 2022*
- Maintained apps with AWS, HTML5, JavaScript, Angular 9, CSS, and Firebase, ensuring seamless performance and functionality.
- Developed reusable TypeScript components and services, facilitating seamless REST API consumption through Angular's component-based architecture.

NEC Corporation India, Intern | Noida, India   *Feb 2019 - Oct 2019*
- Developed and optimized Android app UI, delivering a seamless and intuitive user experience for increased satisfaction.
- Collaborated with team to successfully launch app on Google Play Store, expanding user base and accomplishing project objectives.

Skills

Web Technologies	JavaScript, TypeScript, HTML, CSS, AJAX, JSON, SASS, Angular (8/9/10+)
Test Frameworks	Protractor, Jest, Jasmine, Karma
Web Design	UI/UX design principles, responsive web designs
Soft Skills	Communication, Problem-solving, Adaptability, Teamwork, Time Management, Attention to Detail, Creativity
Other	RxJS (reactive programming), Angular CLI, NPM, Jenkins, Docker, Git, SVN,Scrum, Kanban, AWS, Firebase, VS Code

Projects

Victor   *Aug 2023 - Present*
Client: Verizon
- Implemented and optimized end-to-end functionalities in the project using Angular, JavaScript, HTML, and CSS. Ensured seamless deployment, rigorous testing, and successful UAT for a robust, user-friendly application.

Velo-Cloud   *Feb 2022 - Aug 2023*
Client: VMWare
- Conducted end-to-end testing with Protractor and Jest, ensuring software reliability. Designed user-friendly interfaces prioritizing accessibility. Collaborated across teams for seamless software delivery, mentoring junior developers in Angular, Protractor, Jest, HTML, CSS, AWS, and Jenkins, enhancing productivity and code quality.

VerifHire   *Jan 2021 - Feb 2022*
Client: NEC Japan
- Key contributor in requirements analysis and module development for efficient functionality. Developed REST/Web API services, tested with Postman for robustness. Designed web pages with Angular 9, Angular Material, HTML, and CSS for an intuitive interface. Strategically planned and deployed defect-free code, assuming full ownership of feature division.

Digital Identity Card   *March 2020 - Jan 2021*
Client: NEC Japan
- Contributed to hybrid mobile app development with Cordova, Angular JS, TypeScript, HTML5, and SCSS. Integrated custom camera scanning and QR, ensuring successful deployment, rigorous testing, and ongoing maintenance with issue resolution.

Mi-EYE   *Feb 2019 - Feb 2020*
Client: DP World
- Designed intuitive UI, developed robust functionality using cutting-edge Android tech, ensured quality through rigorous testing, bug fixing, and successful deployment on Google Play Store. Utilized RabbitMQ for efficient message handling and integrated Google Maps for location-based services.

Education

7.4/10	**Masters Of Computer Applications**, KIET	Ghaziabad, India	*2019*

Achievements
